always drawn. A large part of the interior illumination is also for State purposes on some occasions. Even if the cost of exterior illumination can be separately assessed, it will have still to be shown under the head "Staff and Household", as there is no other head more appropriate for the exhibition of this outlay. Whatever be the object of the different kinds of illumination, the cost of the whole supply of power is a State charge and the splitting up of it does not appear to serve any useful purpose. For these reasons, the present arrangement may be allowed to stand.

The Palace,
Mysore 15th June 1922.

My dear Sir,

Referring to the General Budget Estimates for the year 1922-1923, I am directed to state that the sum of Rs. 70,000/- provided therein under 12 General Administration (1) Staff and Household, (3) Palace Lighting includes the cost of exterior illumination of the Mysore Palace which, as you are aware, is purely a State purpose. The inclusion of the cost of this item also under this heading is likely to give room for misconception and it seems desirable that only the cost of power consumed by the Palace for its own purposes, should be shown under this head and that the cost of the exterior illumination of the Palace should be shown under some other suitable head in the Budget.

May I therefore request you to kindly arrange to obtain the sanction of Government and take further action in the matter?

The result of the action taken may kindly be intimated to me.

Yours sincerely,

Dear Sir,

In continuation of my D.O.No.Fl.5618/G.F.214-21-2 dated the 17th June 1922, I am desired to state as follows:

It is not easy to separate the cost of power consumed by the Palace for its own purposes from that used for purely State purposes. The distinction between exterior and interior illumination cannot also be always drawn. A large part of the interior illumination is also ~~from~~ for State purposes on some occasions. Even if the cost of external illumination can be separately assessed, it will have still to be shown under the head "Staff and Household," as there is no other head more appropriate for the exhibition of this outlay. For these reasons, the present arrangement may stand.

Dear Sir,

With reference to your letter No. Fl.80 of the 6th Instant, I write to say that the Chief Electrical Engineer is of opinion that a separate meter can be installed so far as the Exterior Illumination is concerned. It therefore seems possible to assess this portion separately. I am to request you to kindly arrange for the cost of external illumination being shown under some head other than "Staff and Household" which in your opinion may seem appropriate for the exhibition of this Outlay. I am writing to the Chief Electrical Engineer to fix a separate meter for guaging the power consumedfor the exterior illumination.

Dear Sir,

I am desired to acknowledge the receipt of your D.O.No.58 dated 19th July 1922 regarding the separation of the cost of exterior illumination of the Palace from other lighting charges. No head other than "Staff & Household" is appropriate for the exhibition of these charges and the transfer of the cost of exterior lighting to another head altogether is not therefore possible. At the same time there is no objection to the separation suggested and I am to add that the two items may be shown under distinct heads as under:

iii. Palace Lighting.-

(i) Exterior illumination.

(ii) Other lighting.
